Ever After Portraits

Your Moments . . . Forever

ARTISTIC STYLE

The best part of our lives is the love and connection we feel for those closest to us. It is those unspoken moments that are so important... but as life gets busy with responsibilities, it's what we miss out on the most!

Families come to me because they want to see emotion and authentic connection between the people they love - they also value the art of photography.

As a Portrait Artist, my style is a mixture of prompted and candid portraits that have been described by some as emotive, artistic and relaxed.

My typical client does not want stiffly posed portraits; they appreciate guidance to look their best in front of a camera, while also capturing the emotions of the moment.

With over 30 years of experience with photographing people of all ages and backgrounds, I've become an expert at putting people at ease in front of my camera in a variety of location and lighting scenarios.

Whether our indoor or outdoor studio is used, creating art which shows the connection you share with those you love is always the end result.

I cannot wait to create portraits for you, ones that will be treasured for your lifetime and beyond!

Ever After Portraits
Your Moments...Forever

heir·loom / 'erloom / noun - a valuable object that has belonged to a family for several generations

EVER AFTER PORTRAITS is a fine art portrait studio. Within every person, there is a story that deserves to be told, the story of the love, life and relationships that you hold most dear. As storytellers and artists, we listen to your story and then translate it into finely crafted art pieces celebrating the important moments of your life.

Life is busy, complicated and stressful, making it easy to overlook amazing everyday moments. What are the sweetest moments of your day? Is it the joy and delight in your child's eyes when they see you come through the door after work? Or perhaps it's that last kiss goodnight...

Together, we will celebrate those moments by taking you on an emotional journey. Then we will create beautiful works of art to showcase on the walls of your home, portraits to daily remind your family they are loved - letting you experience those moments over and over again, every single day. For a role this important, only the finest will do.

This Design Guide shows you how we tell your story using the highest quality products, ones that will stand the test of time and last for generations.

We can't wait to help you decorate your home with love!

*Finely crafted artwork for
the most beautiful homes...*

PLEASE TAKE A MOMENT to still your mind and give thought to the following two questions:

Who do you want a portrait of/with?

Why did you choose who you did?

If your quick answer is, "Because they're my son, daughter, husband, wife, mother, father, sister, brother," ... slow down. Dig deeper.

Isn't there more to any relationship than a title?

Beyond the title is where portraits you will treasure are waiting to be discovered - portraits that emphasize the personal connection between the viewer and the eye-catching art.

THE MASTERPIECE FINISH

OUR MOST EXQUISITE OFFERING

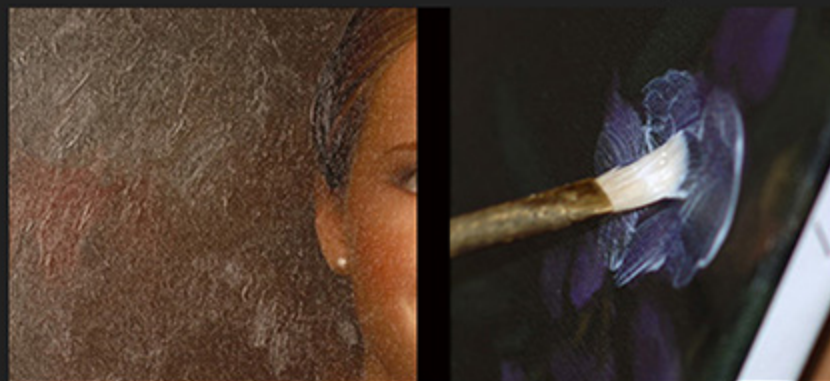

The MASTERPIECE Finish is our most exquisite offering and is what our Studio is known for. This finish is perfect for those clients who prefer the look of a commissioned oil painting.

A mixed media art piece with a modern twist, it is born as a photograph, but is masterfully finished as an original work of art and enhanced with hand-painted brushstrokes.

Painted with the love and talent of a portrait painter, this finish has depth in the shadows and amazing detail in the highlights. This rare process creates a one-of-a-kind piece of art with a timeless look that resembles a classic painting.

Impeccably finished on canvas, mounted and custom framed with museum quality materials, your Masterpiece Portrait is rated for 250 years or more before any fading might take place. A showpiece in your home, framed in one of our beautiful, handcrafted gold- or silver-leafed frames, it will truly be an unsurpassed work of art.

Masterpiece Finish Portraits are available in size 30" or larger.

This style of portrait has been proudly displayed in homes of distinction throughout the centuries. Before the invention of the camera, portraits were carefully painted for families to record their history.

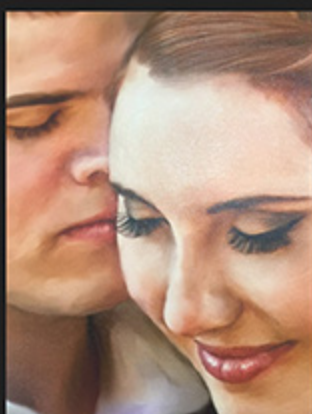

Families through the centuries commissioned European classic portraitists to create art to remind them of what is most important in life - their own family. These portraits were painted in Grand Style, subtly textured, life-sized, framed in sumptuous gold-leaf or hand carved wood frames and proudly displayed in homes of royals, aristocrats and socialites.

Our Masterpiece portrait continues in the grand style and tradition of those Old World master painters. Elegantly posed, beautifully lit, finely finished portraits in the highest standards of consistency and quality - an eloquent reminder of whom it portrays and the importance of family relationships. When framed in one of our beautiful, finished-corner gold- or silver-leafed frames, your portrait takes on a museum quality that is unsurpassed.

Words can give you an idea of how the Masterpiece Portrait is created, but seeing and touching a finished example of it will say it all. In the end, a Masterpiece Fine Art Portrait adds more warmth and love to your home than a Degas, Renoir or Rembrandt.

Establish a new standard of quality for those who enter your home. Isn't your family worth it?

Our SIGNATURE Finish is a timeless marriage of the realism of photography with the richness of artistry. As a modern finish, there are no brushstrokes.

Printed on canvas to the highest archival museum quality standards, mounted to a rich substrate for durability and beauty, the applied UV protection means our Signature Finish is rated to last 150 years before any fading might take place.

Our enhanced artistry, custom to size, makes the portrait come alive, highlights the details, sparkles the eyes, and brings an added dimension to your artwork.

Framed in one of our beautiful, handcrafted gold- or silver-leafed frames, your portrait truly is an amazing piece of art, one that your family will cherish for generations.

PEOPLE OFTEN THINK of photographing the “big” moments, like weddings and anniversaries, as a way to remember an event, or document history.

But the grand moments, the true stories of beauty and wonder, often lie hidden in the quiet.

The most amazing moments in life are here...and then gone in an instant. Life is made up of a series of those fleeting, often magical, moments.

To authentically take your story from a feeling, to a vision, to artwork you and your family will treasure forever, we will get to know you and your family -- and that's one of the most enjoyable parts of our job!

There are many choices when it comes to custom portraiture. Be sure to look around your home for locations where they can be enjoyed the most. We will guide you every step of the way!

LEGACY PORTRAIT LINE HANDCRAFTED FRAMING

The Framing of your portrait artwork is an integral part of the Portrait Artist's creative process and, as such, is never an afterthought.

An expertly crafted, carefully selected frame maintains the integrity of your portrait, while a poorly crafted frame can downgrade even the greatest of art pieces. When we frame your portraits, we guarantee them for a lifetime.

Each frame we offer is carefully handcrafted and hand gilded with gold or silver leaf, and meets the highest standards of excellence.

Individually custom built for your artwork, our frames are designed to complement your portraits, giving you a finished piece that is a true heirloom, designed to be passed from one generation to the next.

Frames are included for Statement Singles in size 30" and larger, and for Statement Collections in size 30" and larger.

Mindy & Jeannie were great to work with throughout the entire project.

PHOTOGRAPHING WALLS FOR WALL ART DESIGN

You may find yourself so overwhelmed by the number of portraits that you love from your session that it seems impossible to choose what to display on your walls and in what size and format.

Not to worry! Our unique process starts with the end in mind. We will assist you in narrowing down your favorites and show you products that will complement your home and your style.

As part of our customized service, we include a collaborative wall art Design Session prior to your Portrait Session. Our studio invested in unique visualization software that takes all of the guesswork out of the process by showing you exactly how your portraits will look on the walls of your own home!

It's easy - Just follow these simple steps!

1

Tape a standard 8.5x11 piece of paper to the wall.

2

Back up far enough to include furniture and other room elements that will give a sense of scale to the final snapshot.

3

Take the image straight on to the wall and not at an angle. This provides the most accurate visualization in our software.

4

Repeat until you have photographed all possible walls for your portraits.

Upload the snapshots using the link we will provide to you.

STEP ONE: Getting to Know You

1

During our phone call(s) with you, we will get to know you and your loved ones, those connections you share between you and what is most important to you.

STEP TWO: Design Session

2

During your complimentary Design Session, held via Zoom, we will collaboratively plan and discuss your session, including the end result you want from it. We will also discuss wall art designs and wardrobe selection.

STEP THREE: Portrait Session

3

On the day of the Portrait Session, if hair and makeup is part of your session you will arrive an hour and a half before your party joins you. Come with clean, dry hair and moisturized skin.

During your Portrait Session, forget the stress and just trust our team to make you and your family look amazing in all of your portraits! We have experience getting the best expressions from children of all ages. We got you!

STEP FOUR: Ordering Session

4

Your Ordering Session will be held via Zoom approximately a week and a half after your Portrait Session. We will present your custom wall art designs, complete with jaw dropping portraits you are sure to love! Special bonuses and offers are available to you at this session, and you will place your portrait order at this time.

STEP FIVE: Delivery & Installation

5

In approximately 4 to 8 weeks after final payment, your portrait products will be delivered to your home. Statement Wall Art in size 50" and larger, as well as Statement Collections include complimentary installation. We will contact you to set up a time to install your gorgeous Wall Art!
